

RODRIGO FERNANDES

As a Software Developer, I'm a very tenacious guy. I never run from a challenge, as I see them as a very good source of knowledge and self improvement. Since I was little I've embraced the struggle and I've become very familiarized with it, that said, I don't stress out when I'm struggling. Instead, I stop for a minute, I analyze why I'm struggling, and then I find a way to overcome the struggle.

Spanish

CERTIFICATES

- The Complete 2020 Web Development Bootcamp at Udemy
- The Complete App Design Course - UX, UI and Design Thinking at Udemy
- The Complete 2021 Flutter Development Bootcamp with Dart

WORK HISTORY

📅 August 2021 - current

📍 GOMA Development, Évora, Portugal

Android Development - Team Lead

Managing a team of 3 (including me) Android Mobile developers. Making decisions in the development of a modular, multi client, betting Mobile App and creating and assigning tasks for all the team members.

Currently using:

- Kotlin
- Android SDK
- Custom Lib created by the team
- REST API's
- Encrypted SharedPreferences

📅 March 2021 - June 2021

📍 TEKEVER Digital, Lisbon, Portugal

Android Mobile Developer

Android Mobile Development using native Android and MORE Designer (proprietary low code tool developed by TEKEVER) in the project Santander Empresas.

Currently using:

- Java
- Android SDK
- MORE Designer

📅 March 2019 - February 2021

📍 DigitalWorks, Évora, Portugal

Android Mobile Developer

Was in charge of Android Mobile Application Development. I made some design and implementation decisions for some current and upcoming projects. Was in charge of the Android version of the application NaturalPTrails, from scratch, developed for ICNF.

Also developed two other applications: one for IPMA (PescApanha) and other for an international client (client dropped off due to internal issues), all of them also from scratch.

Participated in the development of the app My Ticket. Was Also in charge of maintaining projects such as ClubeDoCrista, VoaNaBoa, NaturalPTrails, PescApanha .

Technologies used:

- Java
- Android SDK
- Multiple REST API's
- RoomDB
- SharedPreferences
- In-app SMTP
- KML and KMZ
- Open Street Maps
- GoogleMaps
- Cipher and Encrypt

EDUCATION

📅 2019 - Current

📍 Instituto Politécnico de Beja, Beja, Portugal

Bachelor Degree

IT Degree. Still doing it.

📅 2017 - 2019

📍 Instituto Politécnico de Beja, Beja, Portugal

Associate Degree

Professional course about web and mobile development, with one mandatory curricular internship.

GENERAL SKILLS
